

Bird watching is fun and your whole family can do it with you! An easy way to start is by feeding the birds in the winter. (Remember - once you start you must feed them until their natural food is available again.)

Feed the birds things like cracked corn, mixed birdseed, bread crumbs, suet, and sunflower seeds.

Make a tree feeder by spooning peanut butter on the scales of pine cones and rolling the cones in bird seed. Hang the cones in a tree near your window sill.

Chart the birds you see. Keep your chart by the window sill near the bird feeder. Ask your family to help too! (A book on birds will help you identify them.)

My Bird List

Name _____

Bird watchers keep a list of all the different kinds of birds they have seen. They also keep track of the date and location. Begin a list of your own using the chart below.
